

Oh Sew Easy Tablerunner

Materials:

- 1/4 yard focus fabric (center)
- 1/2 yard coordinating fabric (border/back)
- 2 buttons (optional)

1. Cut focus fabric 9" x WOF. Cut coordinate fabric 18" x WOF (width of fabric)
(for mini runner: cut focus 6" x 21" and coordinate 10" x 21")
2. Stitch focus fabric to coordinate along the long edge, right sides together, with a 1/2" seam. Repeat on the other long edge.
3. Press seams away from focus fabric.
4. Turn right-side-out. You will now have a long tube.
5. Lay flat on the ironing board and press, so that the focus fabric is bordered evenly on the long sides with the coordinating fabric.
6. Trim both of the short ends even, removing selvedge edges.
7. Fold the fabric tube in half lengthwise with the focus fabric to the outside, and stitch both ends with a 1/2" seam. (note: this part may not seem right, but it will make sense when you're done)
8. Press seams open.
9. Turn seams to inside to form a point and press.
10. Stitch a button or yo-yo as shown to secure ends. Optional: topstitch on the coordinate fabric, around all four sides of the focus fabric.
